

Dear Prospective Attorney Volunteers:

With a particularly time-sensitive focus, this volunteer opportunity is being shared, in case you and other lawyers that you know may welcome a way to support equal voting rights for the 2020 General Election.

*While undeniably important for all citizens, these critical voting rights are often compromised disproportionately for those in communities of color, low-income communities, youth, people with disabilities, and other historically disenfranchised populations. With this in mind, I ask you to please consider volunteering for **the national, nonpartisan election rights efforts** of the **Lawyers' Committee for Civil Rights Under Law** ("Lawyers' Committee") (<https://lawyerscommittee.org/>).*

The Lawyers' Committee is well-known nationally for its year-round, non-partisan voting rights programs, among its many civil rights initiatives. Since 1965, the Lawyers' Committee has provided resources and support, maintained historic voting data archives, and initiated legal challenges to voting barriers.

Best regards,

*Nancy L. McCullough, Esq.,
Principal & Managing Attorney
Law Offices of Nancy L. McCullough*
