

**LACBA Statement on Governor Newsom Increasing Funding for California's Courts
and Proposing the Addition of 25 New Judges in the May Revision of California's Budget**

The Los Angeles County Bar Association is gratified that Governor Gavin Newsom continues to support access to justice for all Californians by putting together a revised budget that increases funding for our courts, particularly by adding 25 new judgeships to help address the backlog of cases statewide. As always, LACBA will continue to work with the Governor and our justice partners throughout California to support our courts and our judicial officers.
